- 11 Limited Edition Framed Giclee Print by Peter Coad "DAINTREE"**
The last time I visited the World Heritage Listed Daintree Rainforest in Queensland I was able to spend more time there than previously and it felt very different. This beautiful forest is indescribable to anyone who has never visited it. When walking and driving through the whole area I was emotionally and visually impressed by the intensity of the numerous shades of green in the tropical dense undergrowth and during the climb up to view the canopy of the Rainforest I could not help but feel it was growing and alive around me. I stopped at each landing to record in my sketch-book the type of trees and plants before me and as I went up to the top, constantly peering into the vegetation, I saw one of its unusual butterfly species which I have incorporated in this piece. From the original painting I decided to produce a very limited series of 10 giclee prints and this is No. 3.
